### About Hokkaido University

#### **Hokkaido University**

- Founded in 1876 (one of the oldest universities in Japan)
- Located in Sapporo, Hokkaido (northernmost island)
- Renowned for its research in agriculture, science, and engineering

### Research Proposal Plan

Our research proposal plan aims to create music variations with mathematics. We propose to develop algorithms that can generate musically interesting song,

Here's how we plan to achieve this goal:

- 1. Develop mathematics algorithms to design criteria that generate music.
- 2. Compose a new Thai song using the developed algorithms for generating music variations.
- 3. Create a package for generating music variations.
